Topic	Create IBM Watson assistant service

The screenshot shows the IBM Cloud Watson Assistant console. The 'Manage' tab is selected, displaying 'Start by launching the tool' with buttons for 'Launch Watson Assistant', 'Getting started tutorial', and 'API reference'. The 'Credentials' section shows the API key and URL. The 'Plan' section shows the 'Lite' plan with an 'Upgrade' button. The browser address bar shows the URL: <https://us-south.assistant.watson.cloud.ibm.com/crm%3Av1%3Abluemix%3Apublic%3Aconversation%3Aus-south%3Aa%2F0cd42653c542475797a27fd12b714a82%3Aa%723f0...>

This is a duplicate of the screenshot above, showing the IBM Cloud Watson Assistant console with the 'Manage' tab selected. It displays the 'Start by launching the tool' section with buttons for 'Launch Watson Assistant', 'Getting started tutorial', and 'API reference'. The 'Credentials' section shows the API key and URL. The 'Plan' section shows the 'Lite' plan with an 'Upgrade' button. The browser address bar shows the URL: <https://us-south.assistant.watson.cloud.ibm.com/crm%3Av1%3Abluemix%3Apublic%3Aconversation%3Aus-south%3Aa%2F0cd42653c542475797a27fd12b714a82%3Aa%723f0...>
